

Amplify Classwork in Schoology

Grade syncing saves time by enabling middle school teachers to quickly send numerical scores from Amplify Classwork to their Schoology Gradebook. Follow these steps to set up grade sync and sync scores.

Set up

- Create a course.
- Under “Grade Setup,” set grading categories for the course and select the star to create a default category.

Category	Weight	%	
↕ Classwork	50	50.00%	★
↕ Homework	50	50.00%	☆

- **Add the Amplify App** as a **Material** in each Schoology course for which you want to sync grades from Amplify to Schoology.

The screenshot shows the Schoology Learning interface for a course titled "ELA Demo: Period 2" by Amplify Education Inc. The left sidebar contains a navigation menu with options like Course Options, Materials, Updates, Gradebook, Grade Setup, Mastery, Badges, Attendance, Members, Analytics, Workload Planning, and Amplify. The main content area shows the "Add Materials" dropdown menu open, listing various options such as Add Folder, Add Assignment, Add Assessment, Add File/Link/External Tool, Add Discussion, Add Page, Add Media Album, Add Package, Import from Resources, and Find Resources. The "Amplify" option is highlighted in the dropdown menu.

- During only the first sync, **Grant Access** in Schoology. (This enables grade-syncing permissions for Amplify.)
- Repeat these steps for each course for which you would like to sync grades.

Note: You will follow these steps again for new courses during the second semester.

Before syncing

- In each assignment, **add the max score**.
