

2021 Enrollment methods

The available options for enrollment are outlined below. For additional help, visit our [help collection](#) or reach out to your Enrollment and Licensing contact for more details. To find out which is the right method for your district, you can use our [enrollment web tool](#).

Clever

Clever is a tool that provides secure, automated transfer of roster information from your district to Amplify, and also offers a single sign-on (SSO) option that connects Amplify to your district's Student Information System (SIS) to receive updates automatically.

ClassLink

ClassLink is a tool that provides secure, automated transfer of roster information from districts to application providers. For ClassLink enrollment, you'll discuss the different configuration options and complete your setup with ClassLink's support team.

GG4L Connect

GG4L is a third party enrollment partner similar to Clever. It offers industry-standard onboarding methods via specific SIS APIs as well as OneRoster CSV. It is free for schools and districts to use.

Amplify Enrollment Portal

The Amplify Enrollment Portal is an Amplify-hosted web portal that allows districts to manage and edit their roster information. It is available in limited release for 2021, and will be implemented fully in 2022.

mCLASS® SSE

Self-Service Enrollment (SSE) is a service provided by Amplify, which you can use as often as you need to add to or update your mCLASS enrollment data. With this tool you can quickly import large batches of student, staff, and class information into the mCLASS enrollment system.

As always, our customer support team is here to help. You can contact us with questions at: (800) 823-1969, Option 1, Option 7.
