Welcome, Florida teachers!

We're thrilled that you're exploring Amplify ELA Florida—a fresh new program grounded in the B.E.S.T. standards.

With all of this year's challenges, why turn to something fresh? Because the Amplify ELA Florida Edition offers:

- Great literature and compelling non-fiction, taught in engaging new ways for today's learners
- Fully blended print and digital instruction designed to meet your students wherever they're learning
- Differentiation to support all your students in studying the same rigorous texts
- Embedded assessments and data insights you can start using on day 1
- Customization to support you, wherever and however you're teaching
- Instruction that targets key standards and harnesses multiple learning modes

No matter how the world may change ... no matter where you're teaching this year or next year ... literacy remains fundamental. Your students deserve the best. And so do you.

Amplify ELA Florida is built to help you teach the new B.E.S.T. standards

1

Standards at point of use in every lesson for teachers, both print and digital

2

Daily Exit Tickets aligned to the lesson's spotlight B.E.S.T. standard

3

Reading with the B.E.S.T. modules to help you introduce or reinforce a standard using texts from the Florida text list

4

Clarify & Compare lessons in every unit help students clarify their understanding of a grade level benchmark and apply that understanding to a comparison of two texts.

Amplify ELA supports diverse, inclusive Florida classrooms

Amplify ELA Florida Edition is built for every Florida student to have an effective program—curricula that provide all students with equitable opportunities to achieve academic success, texts and tasks that are relevant to culturally diverse classrooms, and that students' voices and ideas are at the center of learning.

1

Centrality of Student Voices

Amplify ELA Florida is focused on creating and supporting a classroom community where students' voices and ideas drive the learning.

2

The Culturally Diverse Classroom

Amplify ELA Florida ensures that the diversity of students see themselves affirmed in the curriculum and have the opportunity to explore and affirm the contributions of a range of cultures and identities.

3

Academic Achievement

Amplify's curriculum supports teachers to set strong expectations for all students while giving teachers access to the supports needed to meet students where they are.

Lessons designed to engage every Florida middle school student

Daily lessons provide structure and full standards coverage for students but still give teachers the flexibility to meet the needs of their class.

The foundation for every Amplify ELA Florida unit is a great text that students love to read and teachers love to teach.

Built-in scaffolds like audio read aloud, Reveal words, and writing differentiation give all students the opportunity to work on grade level.

Multimedia with the visual beauty of a video game and the rigor of a “Perfect Score” on Ed Reports curriculum

Rich discussions and debates centered around the text and driven by students' ideas.

The M'Naghten rules states that one condition of legal insanity is that the accused "did not know he was doing what was wrong."

1. Describe one moment in "The Tell-Tale Heart" where you think the narrator *does not* "know he was doing what was wrong."

Thought-provoking writing prompts and engaging activities like Socratic seminars and debates

One moment in "The Tell-Tale Heart" where the narrator does not know what he was doing was wrong occurs when he says "You should have seen how wisely I proceeded—with what caution—with what foresight—with what dissimulation I went to work! I was never kinder to the old man than during the whole week before I killed him." Even as he is killing the man, he is content with the good job he was performing.

Assessments aligned to the B.E.S.T. standards with robust reporting to drive instructional choices

Exit Ticket

Auto-scored Formative Writing Assignment

Daily Formative Assessments

Built-in daily formative assessments including Exit Tickets, auto-scored writing, and auto-scored reading comprehension questions all aligned to the B.E.S.T. standards. These formative moments power the Embedded Measure.

Formative Daily Reads

Independent readings are accompanied by standards-aligned questions, which are auto-scored to provide real time reading comprehension data. Students can choose to complete Solos through Amplify's mobile app.

Embedded Measure

The Embedded Measure tracks and measures student performance as they work in daily lessons and then provides groupings based on where students are struggling.

Reading Assessment

- The end-of-unit reading assessments include reading comprehension questions and constructed response prompts and provide practice with the types of questions and activities students may encounter on end-of-year state assessments.

End-of-unit summative assessments

Actionable Reporting

Flex Day

Flex Days contain group activities designed to provide additional targeted practice with key Florida learning standards—including fluency. Teachers use EM recommended groupings to assign activities.

Essay Sub-unit

The essay sub-units move students through a 4–5 lesson writing process to plan, draft, revise, and polish a multi-paragraph argumentative or informational essay.

Amplify ELA Florida works wherever your students are

Amplify ELA Florida's blended curriculum offers fully-aligned digital and print Student and Teacher Editions, allowing teachers and families to support a variety of learning situations—from asynchronous remote to live, in-class teaching—and transition as needed.

Mobile resources so students can read and answer comprehension questions right on their phones

Easy digital work review so teachers can keep track of progress no matter where students are. **MyWork** allows students to see all their work in one place, identify due dates, and review teacher feedback.

Every single core text is available in full in our **digital Amplify Library** along with 700+ other titles

Plug in well with the tools that you use. **Connections with major LMS and tools** including: Google Classroom, Microsoft Teams, Canvas, Schoology, Clever

Text selection

The design of every Amplify ELA Florida unit begins with the selection of rich, complex texts that focus on topics and themes relevant to middle school students. Units are then designed to target the most powerful aspects of each text and engage students in a multitude of activities that put text at the center of instruction. Texts become more complex throughout the year as students' reading skills grow, adding up to a rigorous sequence that rewards effort and builds knowledge across subject areas. Numerous Florida model texts are represented within the core units; additional texts and selections are available through the Benchmark Modules and Amplify Library.

Texts in the Amplify ELA Florida curriculum cover a wide range of topics, themes, and genres, including relevant texts from the Florida booklist. Taken as a whole, the texts show students a diverse picture of the world, while fostering a lifelong love of reading.

Quantitative measures analyze specific aspects of text (e.g., word frequency and difficulty, sentence length, and text cohesion).

 QT: 1090L

Qualitative measures analyze the complexity of the text's structure, language conventions and clarity, knowledge demands placed on readers, and levels of meaning or purpose.

 QL: 2

Reader and task measures analyze reader attributes such as motivation, knowledge, and skill with the level of difficulty of each task.

 RT: 2

Texts in the Amplify ELA Florida curriculum cover a wide range of topics, themes, and genres, with differentiated supports that ensure that all students can also work through each reading and lesson. Taken as a whole, the texts show students a diverse picture of the world, while fostering a lifelong love of reading.

Texts were selected according to the following criteria:

- Text complexity as defined by qualitative, quantitative, and reader and task measurements as required by the Florida B.E.S.T. standards and the Amplify Text Complexity Index
- Balance of literary (L) and informational (i) texts
- Varied representation of genres: novels, plays, poetry, biographies, and other full-length texts
- Varied representation of diverse cultures, perspectives, and authors
- Engaging texts that extend learning and support students as they build knowledge
- Grade-appropriate texts, with scaffolding and compelling activities to support student engagement
- 100% authentic texts
- A library with more than 700 complete books, both classic and contemporary, encompassing a wide range of genres, topics, and cultural perspectives

Unit overviews and core readings

Everything you need for grades 6, 7, and 8 in both digital and print

The core ELA program for each grade consists of six multimedia units. Four or five of the units are focused on complex literary and informational texts and one or two are Collections units based on primary source documents and research.

Each grade also provides two or three immersive learning experiences called Quests, a dedicated Story Writing unit, and a poetry unit. Each grade level provides for a year's worth of instruction.

Grade 6 Florida Flex Days

Amplify has created Flex Days for grade 6 (approximately every fifth lesson) to give you built-in time for all the differentiation, reteaching, and extension work you've been wanting to do. Ready-to-go options include:

- Specific activities to target needed additional practice with key Florida Benchmarks and Expectations, including theme, central idea, figurative language, and paraphrasing
- Targeted recommendations for groupings based on each student's performance on embedded assessments
- Writing activities with suggested prompts for additional analytic writing aligned to either the unit texts or a text of your choice
- Individualized grammar and conventions lessons, either following the pathway mapped out by the benchmarks or targeting the areas identified through Amplify's automated writing evaluator
- Independent Vocab App work
- Targeted fluency practice using key lesson passages

Teachers may also use these flexible opportunities for:

- Additional work with Benchmark modules
- Clarify & Compare performance tasks
- Work with Amplify Novel Guides
- Additional grammar work through Quill
- Personalized close reading practice in the form of an interactive graphic novel called Florida Close Reading

- Excerpts: **Preface and Chapter XI** from *Sights in the Gold Region, and Scenes by the Way* by Theodore T. Johnson
- Excerpt: **Chapter 3—“The Magic Equation”** from *California: The Great Exception* by Carey McWilliams

ACTIVITY HIGHLIGHTS

Role-play: Assume the identity of a gold rush participant and write a diary from their point of view

Develop information literacy: Evaluate the reliability and credibility of online informational sources

Multimedia presentation: Create an interactive timeline to illustrate research findings

THE BIG IDEA

The diverse characters and disparate conditions of the California Gold Rush

READING

Compare and contrast how authors with differing perspectives address related topics

WRITING

Develop a question, conduct research, and create a multimedia project

TEXT FEATURES

Poems, lyrics, maps, images, primary and secondary source documents

Grade 7 Florida Flex Days

Amplify has created Flex Days for grade 7 (approximately every fifth lesson) to give you built-in time for all the differentiation, reteaching, and extension work you've been wanting to do. Ready-to-go options include:

- Specific activities to target needed additional practice with key Florida Benchmarks and Expectations, including theme, central idea, figurative language, and paraphrasing
- Targeted recommendations for groupings based on each student's performance on embedded assessments
- Writing activities with suggested prompts for additional analytic writing aligned to either the unit texts or a text of your choice
- Individualized grammar and conventions lessons, either following the pathway mapped out by the benchmarks or targeting the areas identified through Amplify's automated writing evaluator
- Independent Vocab App work
- Targeted fluency practice using key lesson passages

Teachers may also use these flexible opportunities for:

- Additional work with Benchmark modules
- Clarify & Compare performance tasks
- Work with Amplify Novel Guides
- Additional grammar work through Quill
- Personalized close reading practice in the form of an interactive graphic novel called Florida Close Reading

Definition of Allusion

An **allusion** is a reference to a well-known real or fictional event, person, place, or thing.

Examples:

- She is **carrying the weight of the world on her shoulders**. (This indirectly references Atlas, a figure in Greek mythology who had to hold up the world on his shoulders.)
- You're a real **Einstein**. (Though often used sarcastically, this is a direct reference to Albert Einstein, a scientist well known for his brilliance.)

Instruction for blended learning models

Amplify ELA Florida's new blended curriculum can be used in classrooms with limited access to devices, allowing teachers to make choices about when their students use devices without compromising learning or full standards coverage.

Amplify ELA Florida's blended approach keeps a strong connection between print and digital by having the teacher project uniquely digital moments as students work in their print Student Editions and Writing Journals. This approach works when network connection or devices are unavailable for both brief or extended periods of time.

Structured ELA lesson routines with flexible activities

Build vocabulary 5 minutes

Develop word knowledge

Students work with the adaptive Vocab App to build key text and academic vocabulary and track their level of mastery.

Close read 20–25 minutes

Collaborate and interpret text

Students read analytically to build content knowledge and analyze writers' intentions, choices, and claims. Through a wide variety of activities, students unpack the text by analyzing evidence, discussing interpretations, collaborating, working visually, listening to readings, and developing connections across texts.

Performance task 15–20 minutes

Develop and present ideas

Students continue to refine their understanding of the text, topic, and benchmark with frequent writing activities that ask them to develop their analyses with claims and evidence. To show further evidence of their learning and communicate their ideas, students also participate in Socratic seminars, discussions, performances/presentations, role-playing a character from the text, or trying on a writer's style.

Reflect 5 minutes

Solidify learning

Amplify lessons offer two ways for students to reflect on learning at the end of the lesson.

- **Exit Ticket:** Quick snapshot of students' understanding of the benchmark targeted by the lesson's close reading.
- **Wrap-Up:** An opportunity to reflect on the ideas discussed, extend students' thinking, or preview upcoming material.

Independent work 10–20 minutes

Solo

Students apply their developing reading skills to a new text by annotating and answering a range of auto-scored questions that track their reading comprehension.

The following pages show how the Amplify ELA Florida routines and activities come together in a lesson from 6E: *Summer of the Mariposas*.

2 Vocab App V

The Lesson Brief also includes: the Lesson Objective, which details the reading, writing, and/or speaking and listening objectives; Words to Use, which points out key vocabulary from the reading; Skills & Standards, which lists the spotlight and supporting standards; and Differentiation, which describes differentiated supports and provides additional suggestions for modifying activities.

The Vocab App helps students master critical text-based and academic vocabulary words through game-like activities based on morphology, analogy, synonyms/antonyms, and deciphering meaning. They help students develop dictionary skills by focusing on parts of speech, etymology, and multiple meanings. There are also activities appropriate for multilingual/English learners, involving words from the unit's texts, asking students to match an English definition, Spanish translation, context sentence, audio pronunciation, and visual definition. These activities also align to vocabulary standards.

Vocab Reporting (Teacher view)

3 Work Visually

Visualization activities are an essential part of Amplify ELA Florida, as they open the door to more comprehensive understanding of complex texts. In these learning experiences, students break apart the text in visual ways or use visual cues to “see” key details as they construct meaning.

In this lesson from grade 6, students use a visual map of the Hero's journey to build their understanding of how Guadalupe Garcia McCall makes use of this classic structure in her novel, *Summer of the Mariposas*.

Other units include visualization activities such as using an app to “see” the evidence for and against scientific theories, making storyboards and planning visual adaptations of texts to “read like a movie director,” and comparing and contrasting illustrations with key textual moments.

4 Author videos & dramatic readings

Students benefit from using listening comprehension skills as they build fluency with complex texts. As students begin close reading work with a new text, students listen to the text, perform the text out loud, or watch a dramatic reading of the text.

In this lesson, students listen and watch as author Guadalupe Garcia McCall talks about her inspiration for writing the novel *Summer of the Mariposas*. Students hear about how her own sisters and her experiences as a middle school teacher influenced her writing.

Additional author videos and dramatic readings are embedded in other units. In Unit 8D: Shakespeare's *Romeo & Juliet*, students watch WordPlay Shakespeare videos where actors perform each selected scene next to the text of that excerpt. In Unit 8B: *Liberty & Equality*, two members of the Marvel cinematic universe—Chadwick Boseman and Elizabeth Olsen—offer masterful performances of *Narrative of the Life of Frederick Douglass* and *A Confederate Girl's Diary*.

5 Reading/eReader

Reading standards establish high expectations for all students, even as they enter the middle grades at a variety of reading levels. In Amplify ELA Florida lessons, students access universal supports embedded in the eReader (and built into the print versions of the text) to help them participate fully in grade-level activities.

Reveal: By clicking on these pre-selected words, students access short, contextual definitions for key and challenging vocabulary.

Highlight, Bookmark, and Notes: The digital highlighting, bookmarking, and annotation tools allow students to save and review any text notes from any lesson.

Text size and line spacing: Students can adjust text size and line spacing to find what works best for them.

Two or three times a week, students complete their reading work by developing a piece of writing to refine their reading analysis. They write for 10–15 minutes, **focusing on one claim** in response to a prompt, and **using evidence** from the text in support of their claim.

In this lesson, students build on their discussion of the description of the sisters' dialogue, physical expressions, and action to develop a claim about character traits.

Data collected for Reporting

Differentiated supports: In addition to the core level, five levels of differentiated supports can be assigned in the moment or in advance to help every student work productively.

Writing within the digital platform: Having the text at hand allows students to see their reading annotations and easily copy evidence from the text into their writing. And for teachers, point-of-use tips provide clear guidance on the best ways to support students.

Automated Writing Evaluation:
By clicking into an activity in Classwork, teachers are able to see all students' work, review the auto assessment, and give targeted feedback.

Share Writing - WHOLE CLASS

Call on 2 or 3 volunteers to share.

Each volunteer should call on 1-3 listeners to comment.

Establishing a supportive writing community in the classroom helps students develop their voices as writers. Each writing activity is coupled with a sharing session, where clear routines and student-facing feedback protocols support students as they share and respond to each other's writing. Here, students try out their writing with an audience of their peers to figure out how to express their ideas in a clear and convincing way. In addition, these sharing sessions allow students to learn from the range of perspectives in the classroom.

Clear and consistent Response Starters ensure that students provide feedback that targets key skills and focuses on where a student is using a skill effectively, fostering an effective and supportive feedback environment.

What does the experience of bringing the drowned man home suggest about the Garza family's journey to find each other?

A They have reached the end of their mission.

B Finding each other includes more than just finding their dad.

C The Pérdido family is very different, so the experience doesn't suggest anything about their own situation.

The Exit Ticket at the end of each lesson aligns to a lesson spotlight benchmark. Exit Ticket reporting provides teachers with a quick gauge of students' ability to work with that standard.

Exit Tickets assess students' understanding of the standard targeted by the lesson's close reading. Wrap-Ups offer an opportunity to reflect on the ideas discussed, extend students' thinking, or preview upcoming material.

Data collected for Reporting

Mobile Solos: Students without a computer at home can complete their Solos on their phone. All Solo responses submitted on a mobile device will automatically sync with the digital curriculum, so students can receive automatic scoring and teachers will receive data on student performance. Students who complete Solos on their phone will want to use the Student Editions so they can consult the text while answering comprehension questions. All Solos are also available in print format.

Nearly every lesson ends with a Solo—a reading activity students are meant to complete independently before the following lesson. In most Solos, students read a passage they will analyze collaboratively in the subsequent lesson. In the Solo, they answer questions designed to assess their understanding, draw their attention to important details, and develop their familiarity with a range of question types. Each unit also features a few Solos where students choose one of the 700+ books in the Amplify Library, read for 20 minutes or more, and provide feedback about the book.

Reading comprehension Solos are differentiated to support students reading below grade level. Supports include text previews, which are written at a lower Lexile level and help students focus on key ideas; reduced text, which focuses students on the most critical passages; and a reduced selection of comprehension questions.

Data at a glance

Your **Homescreen** provides teachers with a snapshot of recent student performance. From Homescreen, you can see how the class performed on reading comprehension in the last Solo assignment and on the last formative writing assignment.

Homescreen **Insights** also identify and highlight students in need of additional support or feedback from the teacher. Who's doing amazing work? Who needs a little help? Who hasn't heard from you lately? Through Insights you can reach out to a few students every time you log in ... and never need to work through a whole-class backlog.

Embedded Measure supports personalized instruction

All Amplify ELA Florida units include a robust system of embedded assessment that provides teachers actionable student performance data long before end-of-unit or benchmark exams. The Embedded Measure (EM) reports allow teachers to easily track and interpret student performance against the three core strands of Reading, Writing, and Language without ever interrupting the flow of daily instruction to test students.

The EM system examines student performance on selected reading and writing activities, taking into account the difficulty of each activity. Teachers then receive EM reports that provide an at-a-glance look at which students are at risk in each of the three strands. EM reports also provide recommendations about how to group students for differentiated instruction and extra practice during Flex Days.

Classwork enables timely feedback

With Classwork, teachers can view and comment on student work and progress.

- 1 In the **Activities** tab, teachers will see activities submitted by their students. Teachers can choose to see all activities or select specific activities.
 - Click on a specific activity to review students' scores and the differentiation level each student completed. Teachers can also access Reporting from this page to see more detailed information about their class and individual students.
 - While on the Activities page, teachers can click on an individual student's name to view the student's work, provide feedback, review auto-scores for Automated Writing Evaluation (AWE), or provide a custom score or grade. If needed, teachers can click View Activity to go to the Digital curriculum and see the full activity.
- 2 In the **Portfolio** tab, teachers can view student work, one student at a time. This tab also allows teachers to review status, scores, and feedback provided, and jump into student work at any time.
- 3 The **Levels** tab allows teachers to quickly view student differentiation levels, so they can easily make adjustments based on student work or scores.
- 4 With **commenting**, teachers can send timely feedback to students with the click of a button.

How hopeful do you think Ji-li is at this moment in her story?

Which details in the Prologue lead you to think so?

Ji-li is very hopeful at the beginning of this story. In the prologue, she states that she ① "was happy," she "was always loved and respected," she "was proud" (paragraph 4). Her family always expects her to succeed, which might make some people nervous, but she remembers that she was "able to excel." She knows that her family wants her to be "the happiest girl in the world," (paragraph 2), and she also feels that the leaders of her country are doing good things. At this stage of the story, she says that she has a ② "heart bursting with joy" (paragraph 5), which are words that show she is an extremely hopeful young girl. Overall, the words she uses to describe herself and the situation of her life at this point are full of hope for her life.

Amplify's approach to B.E.S.T. standards

Amplify ELA Florida has an integrated approach to standards instruction. Lessons target the most compelling aspects of selected text passages, and instruction focuses on one or two Florida benchmarks that best support that work. These are identified as a lesson's **spotlight benchmark(s)**. To ensure that students are working toward the level of rigor demanded by the standard, Amplify uses qualitative and quantitative measures, reader and task analysis, and Depth of Knowledge assessments. At the same time, working with complex text demands that readers work across standards. Amplify ELA Florida lessons support this inclusive type of text exploration, rather than offering isolated standards practice. Those standards less central to the lesson are identified as **supporting benchmarks**.

Amplify ELA Florida makes it easy for teachers to identify and evaluate students' work with standards:

- The spotlight benchmark(s) are identified in the Instructional Guide and called out within the activities that provide practice and instruction aligned with those standards, allowing teachers to plan or adapt instruction accordingly.
- The Exit Ticket at the end of each lesson aligns to a lesson spotlight benchmark. Exit Ticket reporting provides teachers with a quick gauge of students' ability to work with that standard.
- Each lesson also lists the supporting benchmarks that students work with, allowing teachers to see full standards coverage throughout the program.

Differentiation

The Amplify ELA Florida curriculum is designed so that, whenever possible, one engaging activity serves the needs of every student, providing appropriate challenge and access for all. The program was built on the principles of Universal Design for Learning and reviewed by CAST, a non-profit education research and development organization. In cases when Amplify's Universal Design cannot meet the needs of all learners, the program provides materials that enable teachers to deliver differentiated instruction to help each and every student meet grade-level standards.

Six levels to support all students

CORE

Designed for students reading and writing at grade level. **Universal Design for Learning** principles provide the foundation for these activities aimed at supporting students in reading and understanding complex texts.

SUBSTANTIAL

Designed for students with learning disabilities or who need significant scaffolding to read complex text. Supports include Writing Prompts broken into small segments, graphic organizers, shortened reading passages, guiding questions, simplified Writing Prompts, and/or sentence starters.

ELL/DEV

Designed for multilingual/English learners (ML/ELs) at the Developing level. Supports include simplified vocabulary, word banks, visual cues, prompts broken into small segments, shortened reading passages, guiding questions, and/or sentence starters.

MODERATE

Designed for students who need clear and strategic supports for vocabulary, language, and syntax in complex texts, including multilingual/English learners (ML/ELs) at the Expanding level. Supports include guiding questions, a list of ideas to consider, sentence starters, and simplified language in Writing Prompts.

LIGHT

Designed for students approaching grade level and often able to work independently with vocabulary, language, and syntax in complex texts, including multilingual/English learners (ML/ELs) at the Bridging level. Supports include sentence starters.

CHALLENGE

Designed for students who read and understand text at their grade level easily and fluently. The Core Writing Prompts often provide an appropriate challenge for these students. The Challenge prompts may ask students ready for more advanced work to compare two sections of text, create counterarguments, or find evidence to support both sides of an argument.

Differentiation Example

◆ All students receive the same rigorous core writing prompt...

Write: Evaluating the Sisters' Approach

Students write about one sister's character trait that they think will be important as the sisters begin their adventure. (12 min)

1

LA CALAVERA: "La calavera del muerto está en su huerto."

2

THE SKULL: "The skull of the dead man is in his grove."

Choose either Odilia or the sister you just profiled using the notes in your Amplify Library.

Which character trait do you think will be important as the sisters begin this adventure? Explain your answer using textual details and your understanding of her character traits.

● ...but students in the substantial differentiation level receive sentence starters to support their writing.

Write: Evaluating the Sisters' Approach

Students write about one sister's character trait that they think will be important as the sisters begin their adventure. (12 min)

1

LA CALAVERA: "La calavera del muerto está en su huerto."

2

THE SKULL: "The skull of the dead man is in his grove."

Choose either Odilia or the sister you just profiled using the notes in your Amplify Library.

What is one of her character traits that will be important as the sisters begin this adventure? Explain your answer using text details and your understanding of her character traits.

Choose one or two of these sentence starters to help you get started writing:

- The character that I chose is ____
- She is ____, I know this because in the story, she ____.
- I think her character trait is important for ____

Student Level Assignments

In the Student Level Assignments screen, teachers easily drag and drop student names into the differentiation level appropriate for their needs.

Organize your students below so they will see the differentiated activity you believe is most appropriate for them. This grouping will be saved and applied to all differentiated activities students see going forward in this unit.

Supports for Florida's English Language Learners

Amplify ELA Florida provides many supports for multilingual/English learners (ML/ELs), allowing teachers to adjust instruction so that ML/ELs can access grade-level content along with their English-proficient classmates. These supports maintain academic rigor and high cognitive demand, while providing scaffolding to support learners at different language levels. They also help to reduce the language demands of learning while maintaining content and learning goals.

Supports include:

- Three levels of scaffolding, one specifically for English Language Learners
- Vocab App with word streams and activities focused on ML/EL vocabulary content
- Visual supports for differentiated prompts
- Definitions of key vocabulary in differentiated activities
- Word banks in many writing activities
- Discussion Sentence Starters, Response Starters for Share activities, and sentence starters for differentiated prompts
- Simplified language in student directions and Writing Prompts
- Chunked directions and prompts
- Reduced amount of text
- Text previews, or short context setting introductions, to foster reading comprehension
- Sentence frames to provide language conventions and support reading comprehension
- Graphic organizers

Reading supports: Materials to help students struggling with context and text complexity.

Background docs

Each Amplify ELA Florida unit comes with a background document to foster engagement, aid with comprehension, and establish context before students begin to read. These documents provide an introduction to each upcoming text; key vocabulary; and background information about the time period, setting, or key concepts students will encounter in the unit. English and Spanish versions available.

Text previews

Text previews, written at a lower Lexile level than the text, provide students with a preview of what they're going to read and focus their attention on key ideas. English and Spanish versions available.

Multi-language glossaries

Available in 11 languages: English, Arabic, Chinese, French, Haitian Creole, Portuguese, Russian, Spanish, Tagalog, Urdu, and Vietnamese.

English-French Glossary	
a wealth of plenty of	une mine de plein de
abates lessens	atténue amoindrit
activists those who fight for a cause	militants ceux qui se battent pour une cause
address speak to	s'adresser parler à

Differentiated Writing Prompts

Differentiated Writing Prompts support struggling students by providing segmented prompts with simplified language, guiding questions, and sentence starters.

Challenge level support

Amplify ensures that advanced students can work at their level through embedded Challenge supports and additional activities, while the Amplify Library, Archives, and Novel Guides provide support for more independent work.

- **Embedded Challenge level:** Differentiated prompts in the Challenge level push advanced students beyond the core prompt by asking them to compare two texts, create counterarguments, or find evidence to support both sides of an argument.
- **Additional Challenge activities:** These extra activities at the end of many lessons challenge students to read a new text and independently apply lesson skills to a written analysis of this text.
- **Novel Guides:** The Novel Guides can also be a compelling resource for students needing additional challenge. The guided reading questions and writing prompts included with each Novel Guide can be printed and distributed to offer additional reading opportunities and further challenge students working at an advanced level.
- **Amplify Library:** For those advanced students able to pursue academic study independently, the Amplify Library offers an extensive resource of more than 700 books ranging in reading level up to grade 12.
- **Archives:** Within the Amplify Library, there are 17 curated Archives, each including 10–12 textual and multimedia sources, focused on a compelling topic for independent study. Archives cover topics closely related to the texts studied in the Amplify ELA Florida units, and include two research questions to focus students' exploration.

Archive topics include:

Amplify Library

The Amplify Library comprises more than 700 classic and contemporary fiction and non-fiction books in their entirety. The collection spans a wide range of genres, topics, and cultural perspectives—a diversity meant to support students as they develop literacy skills. The titles have Lexile levels spanning grades 3–12, providing books for students with varied reading abilities. The collection includes classics such as *And Then There Were None* and *The Call of the Wild* as well as modern titles including *Walk Two Moons* and *Inside Out & Back Again*. These texts are all aimed at supporting and extending work done with the core texts and fostering a love of reading and learning in all students.

- 1 Recently Read
- 2 Book information
- 3 Synopsis
- 4 Lexile Level
- 5 Genres

Custom apps

The Amplify ELA Florida curriculum includes a variety of custom apps in several units. These interactive experiences are strategically placed to allow students to work with key text elements or skills in new ways.

Tell-Tale Art

(7D: Poetry & Poe)

Students use an interactive storyboard app to arrange characters, sounds, and items to match the events described by the narrator in Edgar Allan Poe's "The Tell-Tale Heart." They also create a second storyboard to match their version of events, then note distinctions between the two storyboards to understand the concept of an unreliable narrator.

da-dum
da-DUM

Hope-O-Meter (7A: Red Scarf Girl & Narrative)

Students determine Ji-li's level of hopefulness in passages they have highlighted in *Red Scarf Girl*.

Scene of the Crime (6B: Mysteries & Investigations)

Students arrange items in a room to match their understanding of a description of the room as it appears in Sir Arthur Conan Doyle's "The Speckled Band."

Vocab (All units)

The Vocab App helps students master vocabulary words through game-like activities that challenge students to think through morphology, analogy, and synonyms/antonyms, and to decipher meaning through context.

Caught Red-Handed (6B: Mysteries & Investigations)

Students write about how Sherlock Holmes uses various clues to solve the case in "The Red-Headed League."

Evidence (6B: Mysteries & Investigations)

What is the cause of yellow fever? Students identify and evaluate evidence for each claim. Once all the evidence is ranked, cartoon avatars battle it out to see which claim prevails.

Spotlight (All units)

Highlight and project strong examples of student work.

Quests: Immersive experiences

Quests are immersive team experiences. Students collaborate to solve mysteries, explore neurological disorders, and make sense of historical events. These week-long narrative lesson plans build on the literacy skills students have been developing in the core lessons while shaking up classroom routines and allowing students to take the lead.

Myth World (6D: The Greeks)

Students use their devices to climb Mount Olympus or cross the Mediterranean Sea to Crete, discovering new myths along the way.

The Emancipation Project (8B: Liberty & Equality)

Students listen to oral histories and examine other authentic artifacts to deepen their understandings of slavery in America.

Who Killed Edgar Allan Poe? (7D: Poetry & Poe)

Students role-play as characters from Poe's poems, short stories, and even his biography as they try to solve an elaborate murder.

Perception Academy (7C: Brain Science)

Students explore case studies from Oliver Sacks' acclaimed book *The Man Who Mistook His Wife for a Hat* using games and multimedia assets.

Black, White & Blues in Chicago (7B: Character & Conflict)

Students build their knowledge and deepen their understanding of *A Raisin in the Sun* through a digital recreation of 1950s Chicago full of essays, interviews, and music.

Novel Guides

Amplify ELA Florida's Novel Guides provide middle school teachers with flexible study guides for the books they most want to teach, some of which are available in the digital Amplify Library. Students focus on the strongest aspect of each novel as they explore and analyze key themes.

As opposed to the complete lessons, these guides provide students with lean, targeted instruction that follows Amplify ELA Florida's pedagogy as they explore great literature.

The diverse selection of books in this series presents a range of genres and themes, from mystery to non-fiction and from social justice to identity and courage. Students explore classics and contemporary award winners, expand their literacy skills, and discover the rewards that come with close reading compelling texts. The Novel Guides are designed to be used flexibly and offer suggestions for implementation.

All Novel Guides are housed in the Amplify Library as downloadable and printable PDFs. They include student worksheets and instructions for the teacher to guide their students through a close read of a passage, and all the way to the end of a book.

Poetry in America

Students engage in the study of poetry through lessons developed with Poetry in America. Students use observation, analysis, and discussion to develop an interpretation, and try on each poet's use of language, craft, and structure in creative writing assignments.

Poetry in America sub-units:

Grade 6

- "Looking for The Gulf Motel" by Richard Blanco
- "Glad" by Coleman Barks
- "Those Winter Sundays" by Robert Hayden

Grade 7

- "Carrying a Ladder" by Kay Ryan
- "The New Colossus" by Emma Lazarus
- "Those Winter Sundays" by Robert Hayden

Grade 8

- "Fast Break" by Ed Hirsch
- "Those Winter Sundays" by Robert Hayden

Poetry in America activity highlights:

Discussions with annotated guides

Explore each poet's use of sensory details, figurative language, form, and structure.

Video explorations

Watch and discuss videos where poets, celebrities, and academics share their interpretations and analyses of each poem.

Creative responses

Create your own poems by experimenting with theme and mimicking each poet's style.

Looking for the Gulf Motel

Marco Island, Florida

Richard Blanco

There should be nothing here I don't remember . . .

The Gulf Motel with mermaid lampposts
and ship's wheel in the lobby should still be
rising out of the sand like a cake decoration.
My brother and I should still be pretending
we don't know our parents, embarrassing us
as they roll the luggage cart past the front desk
loaded with our scruffy suitcases, two-dozen

Author Richard Blanco reading his poem
“Looking for the Gulf Motel”

Carrying a Ladder

Kay Ryan

We are always
really carrying
a ladder, but it's
invisible. We
only know
something's
the matter:
something precious
crashes; easy doors

Shiza Shahid interprets “Carrying a Ladder”

Fast Break

Edward Hirsch

In Memory of Dennis Turner, 1946-1984

A hook shot kisses the rim and
hangs there, helplessly, but doesn't drop,

and for once our gangly starting center
boxes out his man and times his jump

perfectly, gathering the orange leather
from the air like a cherished possession

Shaquille O'Neal interprets “Fast Break”

Additional reading options

Amplify ELA Florida partners with Newsela to offer additional readings connected to the program's core units. Any teacher can create a free Newsela account to find additional texts and the rationale for connecting them to core readings. Newsela subscribers can find even more texts specifically curated for the program.

Amplify ELA Florida customers will also receive access to our personalized supplemental program Florida Close Reading! Please see inside back cover for details.

Targeted grammar practice

Teachers can choose when and how to use these materials to best suit their students' needs. The **Grammar Guide** in the Materials section of each Flex Day identifies lessons and activities aligned to Florida grammar benchmarks.

The Amplify Florida Edition digital **Grammar Unit** allows teachers to assign self-guided grammar instruction and practice to cover all standards called out in the Florida Conventions Progression Standards.

Mastering Conventions is a series of four downloadable PDF resources that provide extensive coverage of both remedial and grade-level grammar topics. *Mastering Conventions* contains materials for direct, whole-class, or small-group instruction, as well as individualized practice.

Amplify has also partnered with **Quill.org** to provide students with a set of online tools that help them apply grammar to their writing through interactive activities.

Reading/Fluency

The middle grades are an essential period in the life of a reader. As the adolescent brain enters a phase of rapid growth, students are asked to draw on developing abilities to plan, coordinate, and consider intellectual interactions. Across subjects, students must learn to use their reading skills to build knowledge, solve problems, synthesize material, identify multiple perspectives, and analyze information. Students enter the middle grades with a wide range of reading abilities, making it even more important to develop these skills carefully.

To build these crucial capacities, readers at this age require deliberate practice with critical analysis. They need to access a purposeful sequence of text types and perspectives, gather evidence from the text, develop interpretations, consider the range of interpretations in the classroom community, and refine their understandings of both literal and figurative meaning. At the same time, texts are becoming increasingly complex, and most readers need support to continue to develop their reading fluency in the face of new vocabulary and unfamiliar syntax.

The Amplify reading program

The Amplify reading program aims to ensure deliberate practice with critical analysis, develop students' reading accuracy, and build student's knowledge through the following reading opportunities:

- **Close reading activities:** Daily lessons and instruction provide clear practice through structured close reading activities, where students closely read—and reread—using the lens of the standards to discern what the writer is saying, analyze their choices, evaluate their claims and assumptions, and build content knowledge. These close reading activities are designed to engage and foster critical thinking with the texts, supporting students as they make meaning and develop their own analyses through a small set of repeated moves.
 - **Analytic reading cycle:** A basic cycle of reading instruction in these lessons asks students to:
 1. Select specific details from the text.
 2. Describe what they see in those details.
 3. Explain what those observations might signify.
 4. Connect moments or details within one text or across texts to build a larger idea or understanding.

In every unit, Amplify ELA Florida lessons ask students to describe and explain their ideas based on close observations of the text, encouraging them to develop their own more complex analyses using these fundamental building blocks.

- **The importance of collaboration:** Just as strong readers check their analysis and understanding as new content is presented, the close reading activities provide ample opportunities for teachers to facilitate a discussion or partner students to compare their evidence and interpretations of the text. For this reason, most activities are designed to support a range of interpretations—as opposed to a pure reading comprehension exercise.
- **Independent reading activities (Solos):** In the Solo activities at the end of core lessons, students apply their developing skills to a new text while answering a range of auto-scored questions that track their ability to read

a level text with accuracy. The close reading activities provide practice with the analytic cycle to build reading comprehension, while the Solos check students' level of independent reading comprehension to help teachers understand their progress and decide whether or not to provide additional Amplify supports for fluency practice.

- **Reading in the Collections:** The research-based Collection units in each grade provide opportunities for students to build content knowledge and adapt their reading skills to work with a variety of primary and secondary sources around a particular topic. The activities in the Collection units are designed to support students as they skim to find key pieces of information to answer a research question, compare perspectives of two or more articles, determine relevant sources and their credibility, and gather pertinent information for a discussion or debate.
- **Reading in the Amplify Library:** The Amplify Library offers an extensive variety of texts spanning many genres, interests, and reading levels to give students continual access to additional class and independent reading opportunities.

Foundational reading supports

- **Word knowledge:** The ability to access increasingly complex texts requires an increasing vocabulary and understanding of how words work. Amplify's Vocab App provides students with daily exposure to the key and challenging words needed to parse meaning from each text, as well as practice with a variety of activities that help students understand how to use context clues, word relations, morphology, and contextual definitions.
- **Fluency support:** The design of the Amplify reading program ensures that all students have access to fluent readings of each new text and opportunities to practice fluency themselves, but studies show that struggling readers benefit significantly from regular and deliberate fluency practice. With that in mind, each Amplify Flex Day contains a fluency activity, allowing students to regularly practice fluency (both rate and expression) with a partner using the unit text.

Writing

Students in the middle grades are invested in becoming effective communicators. Their thinking about text is gaining nuance, yet their grasp of sentence structure and their skill with using textual evidence often trails behind this complexity of thought. The Amplify writing program provides students with frequent practice with the types of writing called out in the standards. More importantly, it gives students ample practice figuring out what they notice and think about a subject that matters to them, then finding just the right words to communicate their thinking to readers.

Getting started with writing in Amplify

The Get Started lessons in the first unit of each grade begin with short narrative writing. Students start learning about writing as an opportunity to express a particular perspective, to “show” a reader how they observe the world. Responding to prompts like “Write about one moment when you were nervous” helps students accomplish three important goals:

- **Build the writing-productivity muscle:** The first ten days of instruction are designed to set up the habits and routines of a productive classroom community—most essentially, making sure that every student can produce 120–140 words (depending on the grade) in 10–12 minutes.
- **Jump-start key writing skills:** In these narrative writing activities, students practice focusing on one moment from an experience and using precise observations to describe that moment.
- **Establish a community of readers and writers:** The lessons provide materials and instruction to establish a structured writing routine: 10–12 minutes of independent writing with the teacher conducting short On-the-Fly conferences to support skill development, and a sharing session where students learn protocols for sharing their work with peers and providing targeted feedback.

The Reading/Writing connection: Writing to develop and communicate an idea

After the Get Started lessons, Amplify's writing instruction draws students into more complex work with text. Two or three times a week, the close reading session is followed by a 10–12-minute writing session, where students focus on one claim in response to an argumentative or informational prompt, use evidence from the text in support of their claim, and use conventions to communicate clearly.

As students move from unit to unit, they continue to respond to these almost-daily Writing Prompts, with this same emphasis on the skills of a focused claim, developed use of evidence, and clear use of conventions. This consistency supports continued progress with skills that play a key role in both argumentative and informational writing. And while this work is progressing, Amplify's Automated Writing Evaluation (AWE) provides continual measurement data about these skills each time a student writes, so teachers can understand patterns of progress, compare one piece of writing to another, and prioritize students for particular supports.

Summative essays: Writing to present and persuade an audience

These essay sub-units move students through a 4–6-lesson writing process to plan, draft, revise, and polish a multi-paragraph argumentative or informational essay. These lessons build on the skills students have been developing in the writing activities of the core curriculum: Productivity, Focus, Use of Evidence, and Conventions. Students apply these skills to build structured body paragraphs around the same topic or theme, sequence and connect body paragraphs, formulate transitions between body paragraphs, write introductions that capture the logic of body paragraphs, create conclusions that begin to capture the larger meaning, and use rules of conventions and citations to produce a polished essay.

Writing in the Collections: Writing to answer a question

The research-based Collection units provide the same regular routines and essay activities as the other core units, but also have students conduct short research projects where they develop a research question, identify relevant and credible sources of information, and integrate information into a short piece of writing. In these units, students also work on a creative Writing Prompt, such as writing from the perspective of an actual *Titanic* passenger.

Supporting student writing: Providing targeted feedback and practice

Feedback plays a critical role in helping students meet the challenge of writing, which is why Amplify provides tools to help teachers give students regular, targeted feedback.

- **On-the-Fly supports:** The On-the-Fly supports embedded in each writing activity offer teachers guidance on how to provide effective over-the-shoulder support for each Writing Prompt.
- **Written feedback tools:** Amplify Classwork contains tools for teachers to efficiently review and assess students' written work and provide students with small bites of feedback, allowing students to identify where and how they used a taught skill effectively.
- **Spotlight:** Spotlight is an app within the Amplify ELA Florida digital curriculum that enables the teacher to easily highlight strong examples of student work and project these excerpts to use for instruction—or simply for student appreciation!
- **Flex Days and Revision Assignments:** The Revision Assignments built into the Flex Days and embedded within the early lessons provide regular instruction and opportunities for students to practice a taught skill, while also practicing the skill of revision.

Speaking and listening

Strong texts necessitate and support frequent collaborative discussion. As students determine key ideas and details, notice a writer's craft, and integrate information from the text with what they know, they need to consider a range of interpretations to refine their understanding. Amplify lessons provide regular opportunities for students to practice and benefit from sharing their thoughts in academic conversation, more formal discussions and debates, and prepared performances and presentations. These opportunities are fully integrated into the process of close reading and rigorous writing to complement and support students' literacy work.

- **Daily academic discussion:** The teacher instructional materials note key moments for discussion in pairs, small groups, or the whole class as part of the lesson's close reading session. These discussions have clear direction and purpose—sometimes they serve to surface the range of observations students have gathered from their first read; other times, they have students use those observations to collaborate and refine their understanding of the text.
- **Formal debates and discussion:** Working with complex texts or multiple texts surfaces a range of questions and perspectives. Formal debate structures challenge students to use evidence-driven argument and counterargument, and to understand and evaluate the logic and strength of an opposing perspective. Amplify's Socratic seminars and fishbowl discussions support students as they develop norms and processes to allow for an effective exchange of ideas in their classrooms.
- **Performance and presentation:** Across grades, students have opportunities to work with the text, their ideas, and their peers through various types of performances and presentations. As students plan and perform a scene from a text, engage in conversation as they role-play as passengers on the *Titanic*, or deliver their own version of an abolitionist speech, they are learning to adapt language from the text to a particular purpose.

Amplify ELA Florida research base

Grounded in learning science and tailored for the middle grades, Amplify ELA Florida is a strong integrated curriculum that promotes a rigorous and riveting classroom culture around literacy for all. Amplify ELA Florida is based on extensive research into learning, cognition, and how students develop literacy skills. The program challenges all students to work critically and successfully with complex text, taking into account the specific developmental needs and motivations of this age group.

The Amplify ELA Florida curriculum is built on five research-based pillars:

1. A focus on middle grade engagement

Educating young adolescents is a critical endeavor with unique challenges and opportunities. Middle grade students are peer oriented and thrive when given collaborative, social, and experiential learning opportunities,^{17, 34} and middle grade education should therefore include relevant, challenging, and exploratory curricula with varied and diverse teaching approaches.³⁴ Accordingly, Amplify ELA Florida targets student engagement and leverages adolescents' natural inclinations toward collaboration, exploration, and autonomy. This can be seen across the Amplify ELA Florida curriculum in the careful selection of engaging texts, in collaborative activities, and in student-led inquiry-based immersive interactive learning experiences. Psychologically, middle grade students seek to become independent, desire recognition for efforts and achievements, are self-conscious and sensitive to criticism, and generally exhibit a drop in self-competence in academic subjects.³⁴ Amplify's curriculum aims to cultivate intrinsic motivation—the inherent tendency to seek out challenges, explore, and learn. Feelings of competence, relatedness, and autonomy are paramount to intrinsic motivation,³⁹ and Amplify ELA Florida fosters these through components such as differentiated support, frequent feedback, student-led discussions, and routines that build a collaborative, productive, and empathetic community of readers and writers.

2. Text at the center

Text types: Amplify ELA Florida cultivates literacy through rich, multimodal experiences of high-quality texts. Research suggests that students should work with a rich balance of fiction and informational text to build knowledge of both world and word.⁴⁷ Studies also stress the importance of including a variety of engaging texts that appeal to culturally diverse students.^{25, 44} Providing students with domain-specific complex texts enables them to build critical literacy skills and gain necessary content knowledge.^{22, 47} Amplify places engaging rigorous texts that reflect a range of cultures, ethnicities, and experiences at the center of each learning experience, sequenced so that students continue to build knowledge as they progress to the next grade.

Reading and writing. Reading and writing are best taught together. To write well, students need to become skillful readers of texts.³³ Amplify ELA Florida's effective instruction in reading comprehension emphasizes close reading—the intensive analysis of high-quality text “in order to come to terms with what it says, how it says it, and what it means.” This type of reading is a key component of college and career readiness.⁴² Close reading instruction is linked to significant gains in reading proficiency and students' self-perceptions around reading, particularly for struggling readers.¹⁸ Student writing is influenced by the books they read.^{15, 16, 27, 28} Additionally, strong writing instruction and practice improves reading comprehension and fluency.¹⁹ Therefore, writing and reading activities are highly connected in the Amplify ELA Florida curriculum. Students in Amplify ELA Florida write regularly for an authentic audience and are given frequent writing prompts to both paraphrase and interpret the texts they are reading.

Vocabulary. Vocabulary knowledge plays a critical role in reading comprehension and overall academic success,^{3, 5, 14, 46} and research suggests vocabulary instruction should include frequent, varied, direct, and contextualized exposures to words³⁵ and extended in-depth instruction in definitional and contextual information and word-learning strategies.^{7, 20, 21} Additionally, students should have regular and varied encounters with Tier Two (high-frequency and sophisticated words that students often do not know) and academic vocabulary.^{4, 29} Amplify’s approach to vocabulary instruction encompasses all of these components, and Amplify ELA Florida’s embedded Vocab App provides students with differentiated content drawn from the texts in their current unit.

3. High expectations and strong supports

Amplify ELA Florida meets students where they are while maintaining grade-level rigor for all. Through its differentiated instruction model, the curriculum is designed to “provide equity of access to excellence for the broadest possible range of learners.”⁴⁵ Studies suggest that students of color, students with limited economic means and underserved multilingual/English learners (ML/ELs) receive less instruction in higher order skills development.^{1, 8} Yet, it is this type of instruction that supports the development of our brains in these areas.^{32, 38} Educators point to the importance of a combination of high expectations for performance and teachers and resources to support those expectations.²⁶ Research on differentiated instruction shows broad benefits in student achievement and school satisfaction for a wide variety of learners.^{9, 10, 12} Amplify provides six levels of activities, designed to support a range of ML/EL students with special needs, and advanced students. To support reading comprehension and language production, Amplify ELA Florida employs scaffolds such as text previews, simplified language, visual supports, sentence starters or frames, word banks, guiding questions, graphic organizers, and sentence models.

4. Active, multimodal, and collaborative learning

Students thrive when classroom activities are social and varied.³⁴ Amplify ELA Florida employs direct instruction, student-centered active learning, multimodal instruction, and ample opportunity for student collaboration. Explicit instruction—direct teaching, teacher modeling, and guided practice

of literacy skills³¹—is highly effective, particularly for promoting acquisition of literacy skills.^{2, 6, 31} Additionally, the middle school movement calls for instruction that gets students to actively construct knowledge through problem-solving, questioning, or inquiry.³⁴ Amplify students have many opportunities for active inquiry and learning, including whole-class discussions, small-group work, Reader’s Theater, and Quests. Amplify ELA Florida’s effectiveness is maximized when students use the curriculum’s many digital tools and affordances. Materials supplied in several presentation modes can facilitate learning and retention of information, particularly for lower-achieving students.¹¹ Last, research on effective reading programs demonstrates the importance of collaboration in middle grade classrooms.^{17, 36, 43} Students who come from more traditionally collectivist societies may particularly benefit from a collaborative learning orientation.²³ Within Amplify ELA Florida, there are frequent opportunities for collaboration as students analyze texts, during writing activities, and across student-led activities such as fishbowl discussions, Socratic seminars, and debates.

5. Feedback and assessment

Amplify ELA Florida’s curriculum incorporates many opportunities for formative assessment—or assessment designed to give feedback on student performance that leads to improved learning outcomes.⁴⁰ Frequent feedback motivates students, empowers them to be self-regulated learners, and is critical to their success at a given task.^{30, 37} Research suggests that the brain can work best in an atmosphere of positive, receptive relationships;⁴⁸ trust between teachers and students is an essential ingredient of effective educational relationships.²⁴ Low-stakes formative assessment moments provide opportunities for student growth and learning and are critical to academic success.^{34, 41} Within Amplify ELA Florida, software tools and rubrics enable teachers to provide students with written feedback and measure each student’s progress. Amplify’s emphasis on providing timely, actionable feedback provides the teacher with an effective equity tool that holds students to high expectations, affirms faith in the student, and provides actionable steps.¹³ They also auto-assess students’ vocabulary acquisition and performance on comprehension tasks. Additionally, Amplify’s unique Embedded Measure tracks students’ reading, writing, and language performance across lessons and provides teachers with recommendations on how to best support each student.
