Activity Page

Informative Writing Graphic Organizer: Arctic Habitat

Topic: Characteristics of Arctic Animals and Habitats					
Fact 1: Climate • cold • windy	Fact 2: Water • some water in spring and summer from melted ice for drinking • lots of salt water in the ocean that animals can't drink	Fact 3: Ground • in the winter, ice and frozen ground • in the summer, wet and muddy ground with some ice • ocean—chunks of ice floating in salt water	Fact 4: Plants • moss and grasses on the tundra	Fact 5: Animals • muskoxen • wolverines • caribou • Arctic foxes • Arctic hares • walruses • seals • polar bears	Fact 6: Adaptations • heavy fur • fur color • unique feet characteristics (hooves, large paws) • blubber
Conclusion: The Arctic habitat is very cold, but many animals have adapted to survive there.					

Informative Writing Graphic Organizer: Desert Animals

Topic: Desert Animals		
Fact 1: Gila Woodpecker • bird • makes nest in cacti • omnivore • feathers keep it cool	Fact 2: Desert Cottontail • large ears • long legs • herbivore • small, so it needs to watch out for larger animals that might eat it	Fact 3: Coyote • light-colored • fur reflects sun • fur color is camouflage • carnivore • lives in dens
Conclusion: Desert animals have adapted to live in a hot, desert habitat.

Compare and Contrast

1. Deciduous forests and rainforests are alike because both

Answers may vary but
should reflect information
from the Venn diagram.

A sample answer follows:

Deciduous forests and
rainforests are alike
because both have trees
and animals.

Directions: Use facts and details to complete the sentences.

2. Deciduous forests and rainforests are different because

**Answers may vary but
should reflect information
from the Venn diagram.**

A sample answer follows:

**Deciduous forests and
rainforests are different
because rainforest
plants stay green all year,
but deciduous forest**
